

NEH Community Deep Mapping Institute

Join Our Institute

Who We Are

The National Endowment for the Humanities Community Deep Mapping Institute is a hybrid 12-month virtual and in-person institute running from January 2025 through December 2025. The in-person component will occur July 7th-18th, 2025 in Michigan's beautiful Keweenaw Peninsula hosted by Michigan Technological University.

Applicants selected to be Fellows will receive a stipend to cover airfare, lodging, subsistence, and local transportation for the two-week, in-person component of the institute.

Application Due Date is November 22, 2024. Apply on our institute website at deepmappinginstitute.com

What Will Fellows Learn?

Create Your Own Public-Facing Deep Map!

You will learn to apply community-based practices and methods together with new technical expertise to develop your new or existing deep mapping project.

Learn a range of skills

You will be taught: archival and digital sources; basic GIS skills; digital spatial storytelling and placemaking; no-code/low-code mobile apps for deep maps; outreach and education plans

What is Community Deep Mapping?

Deep maps integrate information and representations about space, time, architecture, material culture, environment, and community knowledge into a spatially and temporally scaled digital platform that affords open-ended exploration of a particular time and place. Deep maps are discursive resources that can be designed to visualize changes in human-environmental relationships over time and to accommodate multiple voices in the creation of community-based narratives.

Why Create an Institute?

This institute, will, for the first time, bring together an otherwise disparate group of scholars and professionals to expand the scope and refine the practices of **doing** deep mapping together.

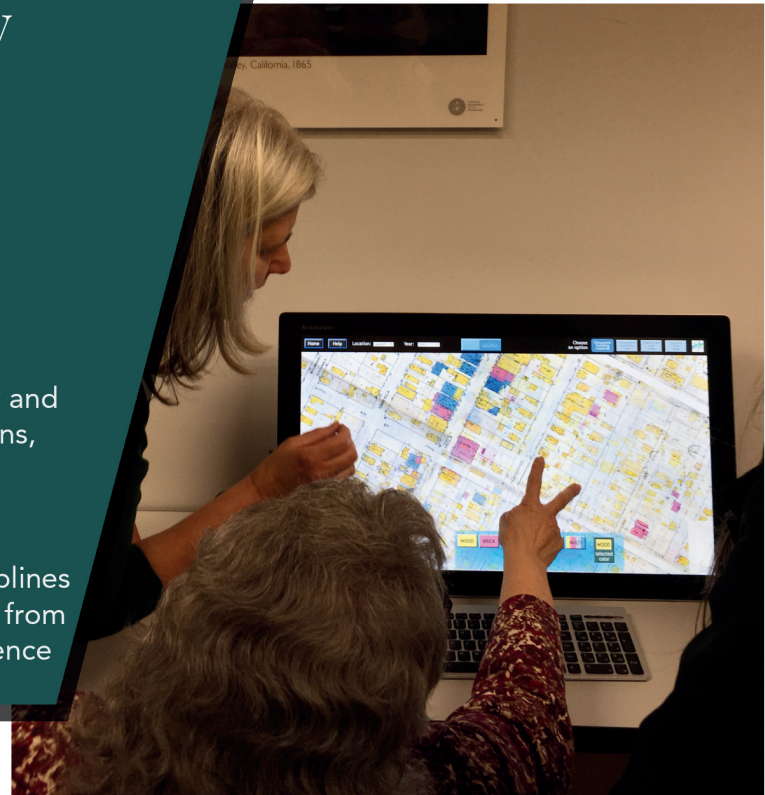

NEH Community Deep Mapping Institute

THE IDEAL INSTITUTE FELLOWS

We are seeking to create a diverse group of fellows including students, early career to senior scholars, professionals in history and heritage who work with public audiences such as public historians, interpreters, and those who work in museums, parks, historic sites/houses.

We seek to develop a cohort of fellows from a diversity of disciplines across the social sciences, humanities, computing, and beyond, from a range of geographical locations, institution types, and experience in the spatial humanities and GIS.

- Fellowship Applications: **Due November 22nd, 2024**
- Notification of Acceptances: December 18th, 2024
- Fellow Personalized Virtual Workshops and Data Discovery: January-March 2025
- **Immersive In-Person Program in Michigan's Keweenaw Peninsula: July 7-18th, 2025**
- Deep Map Implementation: July-October 2025

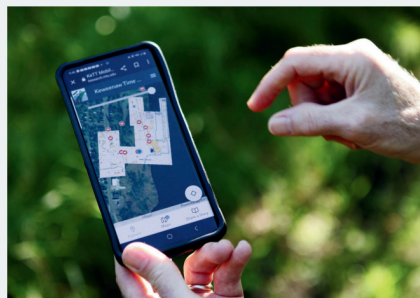

Institute Fellows are expected to participate in all aspects of the institute including the virtual workshops and must be in residence for the entire duration of the two-week in-person portion of the Institute in Michigan's Keweenaw Peninsula.

Applicants selected to be Fellows will receive a stipend to cover airfare, lodging, subsistence, and local transportation for the two-week, in-person component of the institute.

We especially encourage small teams or groups of collaborators to apply to work together on a shared deep mapping project.
